

The following are the instructions on how to get a skater's time for meet entries:

1. Navigate to <http://www.speed-skating.bc.ca>
2. Click on **Events and Results** dropdown
3. Click on **BCSSA Lookup** option

4. When prompted for username / password:

Username: **PGB**

Password: **Ra4lni**

Note: The login is case sensitive: for password - **Capital 'R'** and **Capital 'i'** (as the forth letter in the password)

5. Once the search window appears, follow the instructions to populate the search criteria:

Screenshot Below is an example. NOTE: we are **ZONE 8**

Search

Season

Select Search Criteria

How to use this Report.

Most of this will be pretty straight forward however there might be times where you do not get any results. This search is a combination search, which means the more you add the less results you will receive.

We have worked to make this as easy as possible and provide fast and accurate results.

Select a Season

You may pick a single season at a time. Due to the changes regarding age classes over the years we can not display a combination of seasons.

Select a Club

Select Your club or pick to view all Clubs.

Select a Gender

To restrict to only a specific gender you will need to set the gender. You would use this when selecting mixed gender age classes and only want to see the male or female skaters.

Select a Age Class

The age classes will update automatically based on the season you choose.

Select a Category

Also know as discipline, these include Long Track and Short Track.

Select a Race Type

Select the type of race. This will automatically update based on the category(discipline) you select to reflect the correct race types.

Select a Distance

You can pick a specific distance, All Distances or Official Distances. Official distances are pre-selected based on the Category(Discipline).

6. Example of results:
